To Whom It May Concern:

I wholeheartedly recommend Bonnie Hovel for facilitation of any team building. I have had her help me over the last eight years with several different teams. She has been in when things were going well and when there was utter chaos. In every instance, her empathy shined through and helped my office take a leap forward. The clarity with which her tools were used, her preparedness, her warmth and her ability to deal with impromptu flare-ups make her work invaluable.

Whether you want to take a leap forward with clients as you work with a harmonious team, or seek to untangle the team itself, let Bonnie help you. Of course I can tell you tales about every time she came to work with us and am happy to discuss them if you would like to call me.

Regards,

Raymond Hsu, D.D.S., M.A.G.D.
